McCLELLAN'S MAIDEN CAMPAIGN SPEECH.

He Puts in a Good Word for Sherman and Sheridan.

HE DON'T KNOW GRANT.

Etc., Etc., Etc., Etc., Etc., Etc., Etc.

There was a mass meeting of Copperheads, peace men, shoddyites, &c., at Orange, N. J., last night.

When this meeting adjourned the serenade to General McClellan commenced. During its progress the General was introduced to a number of friends, all of whom he received most politely and often cordially. Various remarks were made by the General expressive of his sentiments towards the individuals who were introduced, but the most remarkable statement that fell from him was one in reply to A. J. Rogers, when he asked him jocularly for his vote this fall. "I will vote on the right plank anyhow," replied the General.

When the serenade had proceeded some time Governor Parker introduced the General to the assembly, who now numbered five or six thousand. As soon as the General made his appearance on the balcony, he was received with the greatest enthusiasm, which was maintained for a considerable time. Cheer followed cheer for "Little Mac"—for the popular commander of the old Army of the Potomac. Governor Parker introduced the General in a sound Union address.

GENERAL M'CLELLAN'S SPEECH.

The General replied as follows:—

My Friends and Neighbors and Your Excellency—I am not here to-night to make a long speech, but merely to acknowledge this most pleasing compliment. I trust that this demonstration is the prescience of that great civil victory which we hope to win at the polls in favor of the Constitution and country. I hope the glorious victories won by the gallant and skilful Sherman, the heroic and dashing Sheridan, and the intrepid Farragut, are the forerunners of the great victory for the defense of the Constitution which shall soon, I hope, be achieved.

I thank you, my friends, for this most pleasant demonstration, which far exceeds all that has been expected to-night. I thank you for your expressions of friendly sentiments, and I trust you will now permit me to say good night.

The General then retired amid a scene of enthusiasm such as is rarely witnessed. After this he was introduced to a number of his friends in the hotel, and soon retired for the night. The meeting continued till a late hour, and the streets of Orange rang with McClellan cheers till midnight.

SHERIDAN'S ARMY.

The Pursuit of Early Continued.

A SHARP CAVALRY FIGHT AND A VICTORY.

Extent of the Rebel Losses.

HARPER'S FERRY, September 27.—Our victorious army is pushing on rapidly after Early's demoralized forces. Sheridan's headquarters on Sunday was at Harrisonburg, and to-night will probably be at Staunton, about one hundred miles distant from this place, and fifty-seven from Lynchburg. Our cavalry is far beyond Harrisonburg, annoying the Rebel flank and rear.

On Saturday Torbert's command struck the main body of the Rebel cavalry near Luray Court House, while on their way to operate in our rear. A sharp fight ensued, in which the Rebels were worsted and compelled to retreat up the valley with a loss of several hundred killed and wounded, and seventy four prisoners.

On Sunday morning General Torbert joined Sheridan beyond Newmarket, and immediately started with his whole command in the direction of Staunton.

Prisoners say that after the fight at Winchester the Rebels loaded all their empty trains with wounded. About seventeen hundred were thus carried off, among them a large number of officers.

Our losses in the attack on the Rebel position at Fisher's Hill on last Thursday have been overstated. They will not number more than two hundred and fifty or three hundred. The casualties were confined principally to Crook's Corps, which did most of the fighting. The losses in the 19th Corps, in the fight on the 19th, will number nearly two thousand.

The completeness of the surprise of the Rebels at Fisher's Hill may be imagined from the fact that the guns captured there were all loaded to the muzzle with grape and canister; but Crook's charge was so impetuous and rapid that the Rebels did not get time to discharge them.

Guerillas are becoming troublesome between Harper's Ferry and Winchester. Last evening, a little after dusk, two ambulances, containing Surgeon-General Phillips, of Pennsylvania, and a party of friends, were attacked two miles and a half from here. Surgeon Koover, 6th Pennsylvania Cavalry, was shot through the abdomen; and two of the escorts, belonging to the 17th Pennsylvania Cavalry, seriously wounded. On Saturday, also, the guerillas attacked a train between Winchester and Harper's Ferry, killing and wounding several of the guard. Twelve of the scoundrels were afterwards captured and seven of them hung.

The Baltimore and Ohio railroad is now in running order through to Wheeling.

Fifteen pieces of captured artillery and four caissons were brought to Harper's Ferry this morning. Seven more yet remain in Winchester. The Rebels in the two battles lost three-fourths of their artillery, though they claim to have a large park at Staunton in reserve.

The losses of the Rebels in the recent fights in the Shenandoah valley are thus stated on the authority of a Government official sent for the purpose of ascertaining:—

Arrived at Harper's Ferry (these include 206 officers)	3,160
Wounded at Winchester	2,350
Captured between Fisher's Hill and Woodstock	2,233
Wounded carried off by Rebels (estimated)	1,700
Wounded at roadside houses (estimated)	1,000
Killed and wounded by cavalry in Luray valley	450
Total	10,55[illegible]

General Chapman, of the 2d Brigade, 2d Division of Cavalry, wounded at the battle of Opequan, arrived here (at Washington) to-night.—*New York Tribune.*

Sheridan Pushing Rapidly in Pursuit of the Rebels—Early Gives Up the Contest—Escape His Only Wish.

MOUNT JACKSON, VA., September 24.—Although we have had considerable fighting since leaving Winchester, still there has been nothing in the way of a regular battle or anything approaching the action of Monday last; the captures of artillery, flags, etc., at Fisher's Hill were made more by the rapidity of our movements and accurate manœuvring than by the force of battle.

Information from the rear is to the effect that the guerillas are very active in that quarter. All our trains have to be heavily guarded to protect them from attack.

To-day we are still moving on. The enemy is retiring. Skirmishing is constantly going on. Our cavalry is doing nobly. The impression is that the enemy will not make another general stand this side of Staunton, and perhaps not there.

It is beyond a doubt now that Early is doing everything he can to get out of our reach as fast as possible, and should an engagement ensue today or to-morrow, it will be because we have forced Early into it.

Should all our plans prove successful, the present movement of Sheridan, before it is ended, will prove as remarkable, interesting, and valuable as any of the war, and I think the people at home will be as much surprised as the Rebels will be at its tendency and termination.

As we are continually on the move, it is impossible just at this time to write long despatches or go into details. Every hour adds more and more prisoners to our already immense number. Stragglers and deserters come in rapidly and largely.

Our wounded are being rapidly sent to the rear and to Harper's Ferry.—*New York Herald.*

ARMY OF THE JAMES RIVER.

Gold Out of Sight in Richmond.

REBEL PAPER UTTERLY WORTHLESS.

A Brigade and Two Regiments Sent to Reinforce Early.

HEADQUARTERS DEPARTMENT OF THE JAMES, September 26.—In recent letters I have given many incidents tending to prove that the end of the war cannot be distant. The signs of Rebel exhaustion and waning confidence daily increase. Desertions are more numerous. Refugees come in almost every morning from Richmond; often a dozen together. Gaunt famine stalks through the streets of the Rebel capital, and cannot be driven away. The Rebel journals, in each succeeding issue, whine more dismally at the miserable condition of the Confederacy, although their lamentations are partially disguised in brave and reckless rhetoric. These are a few of the tangible and apparent tokens of fast approaching dissolution. But I am glad to be able to add another and more emphatic sign that the death-hour is near.

Gold, the sinew of war, is entirely out of the Richmond market. It cannot be bought in Richmond now at any price. Sheridan's first staggering blow, on Monday last, sent the sensitive metal high up the tube of the orometer, and the figures showed a corresponding depreciation of confidence in Confederate paper. The second blow administered by Sheridan caused a further elevation, and brokers held one dollar in gold to be worth thirty dollars ($30) in Rebel paper.

On Thursday last it was decided that there was no longer any comparative value between gold and Confederate notes, and the former was withdrawn from market. This is a sign of collapse that you may look in vain to find in any Richmond paper, but depend upon its truth. It is told me by one who knows, and gets his information of what happens in rebeldom from trustworthy sources. Three cents is the present value at Richmond of a Confederate dollar note. That sum scarcely pays the cost of the engraving and printing, without considering the paper, and that is high priced.

It is the impression here in well-informed circles that Early will gather up his scattered army for a stand at Lynchburg. Lee is reinforcing him. He has already sent him within the past two days one brigade, and two regiments besides.

Affairs at Dutch Gap are progressing surely, if not so fast as was at first anticipated. It is hoped that we shall celebrate the opening of the canal before two weeks are gone. I have seen specimens of coal from a stratum discovered in the excavation. The Virginians already have extensive coal mines in the adjacent county of Chesterfield, and this vein at Dutch Gap may be connected with them. We are not only making a valuable "internal improvement," but also developing the mineral wealth of the State. Surely, Virginians, ye should be grateful.

The thoughtlessness of certain newspaper scribes in writing of matters with which they and the public have no special concern, and the publication of which is apt to give "aid and comfort" to the enemy, has called forth a circular from General Butler for their future guidance. Every correspondent with the Army of the James, or in the Department of Virginia and North Carolina, has received one of these circulars, and the one addressed to me I send for publication, with the simple remark that I heartily coincide in the General's idea of the matter.—*N. Y. Times.*

HEADQUARTERS DEPARTMENT VIRGINIA AND NORTH CAROLINA, In the Field, September 25, 1864.—To the Newspaper Correspondents connected with the Army of the James and in the Department of Virginia and North Carolina.—Gentlemen:—I need not say to you, probably, that I have never interfered with the quantity, kind, or quality of your communications in regard to the movements of the Army of the James, or in this Department. I have stated to some of you, that I desired that you should speak only of acts done, and to say nothing of movements when in preparation or while in progress. Forty-eight (48) hours at the farthest brings to the enemy in printed form, as well the speculations and prognostications of events about to happen, in which you may indulge, as the facts that have already happened which you narrate.

From my knowledge of you and each of you, so far as you are known to me, I believe all sincerely loyal and patriotic, and that either of you would not willingly do anything which would aid the enemy, and yet unwittingly I have thought that you do so.

Now, then, I desire that in any correspondence from this department there shall be no prognostications, no assertions that you could give news if it were not contraband, no predictions that movements are about to be made that will surprise the enemy or anybody else. Indeed, gentlemen, allow me to commend to you, as a rule of action, the advice of "Hamlet" to his friend "Horatio," when he desired to keep secret his acts and intentions.

> "That you, at such times, seeing me, never shall,
> With arms encumbered thus, or this head shake,
> Or by pronouncing of some doubtful phrase,
> As, Well, well, we know—
> Or, We could, an if we would;—
> Or, If we list to speak;—or, There be, an if they might;
> Or such ambiguous giving out, to note
> That you know aught of me;
> This do you swear."

After any movement has been made and completed, then you can give such an account of it, and of the officers and men engaged in it, as your good judgment and good taste may dictate, and for that purpose every facility of public or official documents in my possession will be put at your disposal.

A word further of caution, and I hope I shall not have troubled you in vain. Description of the movements of officers of high rank frequently give the enemy a clue that some movement is in progress, which a reasonable amount of sagacity will enable them to discover.

I have the honor to be, gentlemen, very respectfully, your obedient servant,

BENJAMIN F. BUTLER, Maj.-Gen. Comd'g.

A MASS CONVENTION OF PEACE MEN.

The New York *Daily News* of yesterday publishes a letter from Cincinnati, extending to peace men throughout the country an informal invitation to meet in convention in that city on the 18th of next October. The writer says that ever since the "McClellan breakdown" at Chicago, the peace men have been in a disorganization, and he adds:—

"No formal call is to be issued for the assemblage of this convention, although of such thrilling importance in American history, because without an independent organization there are no authorized agents to issue such a call; the general and heartily concurrent understanding and approval of the States Rights men of the States being deemed sufficient to secure a general attendance. * * *

"It is the design and the sole design of the Convention at Cincinnati to supply the criminal omission of that at Chicago. If there is any wisdom, firmness of principle, patriotism, and earnestness of purpose left in the American people, it is expected to be manifested here. As the Chicago Convention was expected to have been the most august and important assemblage ever convened on the American continent, and so signally and recklessly failed in its high mission, the eyes and hopes of mankind must turn again to that about to meet in Cincinnati.

"The elevation of no man or set of men will intrude upon its deliberations. It will be purely devoted, irrespective of all current elections, to a clear enunciation of the cardinal doctrines through which American liberty and American Union were secured, and by which alone they can be restored; and it will apply them directly and luminously to the malady now upon us. The great idea of the Democratic party, its traditions, and the long and eventful future, demand that its disciples be just to it now."

General Hooker in the Field Again.

Major-General Hooker received orders at a late hour on Monday night to report immediately to the Secretary of War for assignment to duty. The General accordingly left the Astor House yesterday morning, and arrived in Washington last evening. The exact nature or field of the General's future action is not yet known. The public, however, will be delighted to know that such a gallant leader is soon again to be in the saddle, aiding to give the finishing blows to the Rebellion. The General's brief period of retirement has been a season of much-needed rest and social enjoyment, and he returns with a renewed zest for vigorous service.—*N. Y. Times.*

THIRD EDITION

LATEST ARMY NRWS.

SHERIDAN'S PURSUIT OF THE REBELS.

WASHINGTON, September 28.—The *Republican* in an extra publishes the following:—"We learn officially that the advance of the Rebel General Forrest has been suddenly checked at Pulaski, Tenn., to which point northward he pushed, after destroying the railroad bridge at Elk river.

Despatches were received by the Government this morning containing the latest report from General Sheridan. They announce his arrival at Harrisonburg on Monday, and his intention to follow up the pursuit of Early, who was hastening towards Staunton, with the shattered fragments of his defeated and demoralized army.

Every attempt of Early to take advantage of the gaps in the Blue Ridge mountains, to annoy General Sheridan's rear, has been defeated with great loss to the Rebels.

On Saturday Torbert's Cavalry met the Rebel Cavalry near Luray Court House, and after a spirited fight, which lasted several hours, routed them with a loss of several hundred killed and wounded, and about 80 prisoners.

The Rebels were cannonaded by General Wickham. They retreated up the valley.

On Sunday, our cavalry effected a junction with Sheridan's infantry, near New Madrid.

FORREST'S GREAT RAID.

THE WAR IN TENNESSEE.

REBEL ATTACK ON PULASKI.

Reported Capture of Two Trains on the Chattanooga Railroad.

NASHVILLE, September 27.—Skirmishing with the Rebel force under Forrest continued all day yesterday. General Rousseau fell back two miles from Pulaski, but readvanced and held his position and the town up to 7 P. M. To-day the enemy advanced his skirmish line to within half a mile of ours, and will probably advance his lines and attack in the morning. Our loss in to-day's fighting will not exceed eighty men.

Prisoners captured in Marshall county on their way to McMinnville, with despatches for Cerro Gordo Williams, who was to unite with Forrest, state that Forrest has twenty pieces of artillery and about seven thousand men. Six regiments were reported sent to him from Wheeler's force. General Rousseau, by a strategic movement, invited an attack from the Rebel commander, but he did not respond.

There is no telegraph in working order to Pulaski.

It is rumored at Chattanooga that two trains were captured on Monday by the Rebel force at Big Shanty, on the Chattanooga railroad. Officers just from the front confirm this statement.

Governor Johnson made a forcible and patriotic speech last night to a torchlight procession by the German residents, headed by the 5th Regiment New York Volunteers, who have re-enlisted.

Colonel L. Donaldson, Chief Quartermaster of the Department of the Cumberland, has organized the entire force of the department, amounting to over seven thousand men, comprising eight regiments. Arms and ammunition have been furnished them, and they are in readiness at a moment's warning to co-operate with the regular troops whenever occasion requires. Great praise is due to the chief of the department for the energy and zeal displayed in bringing into action this effective branch of the service.

The 173d and 176th Ohio hundred-day men have arrived in the city.

Captain W. Knorr, A. A. General on the staff of Generals Granger and Miller, has been ordered to the Potomac, on the staff of General Birney.

FROM THE LOWER MISSISSIPPI.

Adoption of the New Constitution in Louisiana.

CAIRO, September 27.—The steamer *Magenta* No. 2, arrived here to-day.

The steamers *Cromwell* and *Sierra Nevada* were to sail for New York on the 24th.

The steamship *Commander*, which left New York on the 3d, had not arrived at New Orleans, and some uneasiness was felt in consequence.

The gunboat *Selma*, from Mobile, arrived at New Orleans on the 21st. The rams *Tuscaloosa* and *Nashville* are reported to have gone to Montgomery, Alabama, but the report was not credited. It is believed they had gone up Spanish river, to get a near position to Mobile.

The steamer *Gertrude*, laden with cattle, commissary stores, two hundred sacks and fifty bales of cotton, was sunk at College point, on the Mississippi river, on the 20th. Five of her passengers are missing. The bodies of two ladies had been recovered.

An official announcement of Governor Hahn gives the total number of votes cast for and against the new Constitution, aggregating 6835 for it and 1600 against. The Governor's proclamation declares the Constitution henceforth the ordained and established law of Louisiana.

Cotton was at a stand still. Provisions and produce were extremely dull.

A fire at Baton Rouge, on the 21st, destroyed a block of buildings.

FROM BALTIMORE TO-DAY.

Special Despatch to The Evening Telegraph.

BALTIMORE, September 28.—The Baltimore and Ohio railroad commenced to-day running trains through to Wheeling and Parkersburg.

Rebel prisoners continue arriving from Sheridan's department. Many of them say the Rebellion is played out, and are rejoiced at being prisoners.

Nothing later from Grant. Rebel reports of his being recently repulsed are all false.

Archbishop Spaulding is somewhat better today.

TO-DAY'S WASHINGTON NEWS.

The first through train for Wheeling left this morning.

NEW YORK, September 28.—The steamer *Cassandra*, from New Orleans on the 18th, with three hundred prisoners from Fort Morgan, has arrived.

FROM THE ARMY OF THE POTOMAC.

HEADQUARTERS OF THE ARMY OF THE POTOMAC, September 26.—Quiet still prevails in front of Petersburg, broken only by the usual picket firing, with occasional artillery duels, the effect of which is merely a large consumption of powder by both parties.

A good deal of heavy firing was heard yesterday and to day, in the direction of James river, supposed to be from the gunboats.

A large body of Rebel Cavalry are reported, this afternoon, to be moving to our left, but if so their object has not yet been developed.

Three scouts were arrested within our lines yesterday, and evidence has been obtained which is said to be strong enough to convict them.

Two citizens were also arrested, charged with giving aid and comfort to the enemy.

An order has been issued in relation to the loss of colors in battle, namely:—

HEADQUARTERS ARMY OF THE POTOMAC, September 23, 1864.—The following order of the commander of the 2d Division, 2d Army Corps having been transmitted to these headquarters for the consideration of the commanding General, the same is approved and confirmed, and it is announced that hereafter no regiment or battery that loses its colors in action will be allowed to carry others without the authority of the commanding General, and such permission will not be given in cases where it shall appear that a regiment or battery has lost its colors through mismanagement in battle, until such troops shall, by their bravery in other fields, fully retrieved their tarnished honor.

By command of Major-General MEADE.

(Signed) S. WILLIAMS, Ass't Adj't-Gen.

HEADQUARTERS OF THE SECOND DIVISION, SECOND ARMY CORPS, August 30, 1864.—The following named regiments having lost their regimental colors in action, are hereby deprived of the right to carry colors until by their conduct in battle they show themselves competent to protect them.

8th New York Heavy Artillery,
164th New York Volunteers, and
36th Wisconsin Volunteers.

The officers and men of the command should understand that their colors should be the last thing surrendered, and that in all well-regulated military organizations it is considered a disgrace for a majority of the command to return from the field of battle without them.

By command of Major-General GIBBON, commanding the Division.

(Signed) A. H. EMBLER, Capt. and A. A. G.

An order has been issued that officers who have served three years as officers may be mustered out, the time during which they may have been in the army as privates not counting.

THE LAKE ERIE PIRATES.

ARREST BY THE CANADIAN AUTHORITIES—GENERAL DIX AT WORK.

From the Buffalo Commercial Advertiser, Sept. 26.

We learn that on Saturday seven or eight of the Rebels concerned in the recent piratical raid on Lake Erie were arrested at St. Catharines, C. W., by order of the Attorney-General of Canada. They were placed in custody, and will be held till delivered up to the United States under the extradition treaty.

We learn that while General Dix was in this city on Thursday, he had a friendly conference with Mayor Fargo, in reference to the recent troubles on the lakes. His business to Detroit and other Western cities was to obtain the necessary statements and affidavits for the making out of a statement to present to the British Government. The extradition of the pirates will be demanded, and without a doubt conceded by the British authorities.

From the Cleveland Herald, September 24.

The officers of the United States Courts returned from Sandusky last evening, without bringing with them any of the conspirators. Merrick and Rosenthal were ordered by General Heintzelman to be held subject to military authority, and are closely confined on the island. Cole and Robinson were ordered by Secretary Welles to be sent to Fort Warren, but it is not improbable that they will be turned over to the military authorities on the island. Cole confesses to have been a Rebel captain, but says he was cashiered for drunkenness, a story which his habits at Sandusky render somewhat plausible.

AMUSEMENTS.

SIGNOR BLITZ.—An entertainment for the benefit of the Bunker Hill Association will be given by Signor Blitz, on Thursday evening, at the American Mechanics' Hall, Fourth and George streets.

CITY INTELLIGENCE.

STATE OF THERMOMETER TO-DAY.—Six A. M., 65. Noon, 76½. One P. M. 77. Wind, W. S. W.

RECRUITING.—This morning, the Mayor issued warrants for the payment of the city bounty to 81 men, none of whom were substitutes. These men were all consigned to the Birney Zouaves and Union League Regiment, and mostly credited to the Tenth, Eleventh, Nineteenth, and Twenty-fifth Wards. The Tenth Ward announces that its quota is full, which makes still less competition for those wards which are in arrears. The records at the various recruiting stations show that very few of the residents of Philadelphia are at present enlisting. This is particularly the case with the regiment of Zouaves now forming in this State for General Birney's command. Of the regiment, four companies are to be raised in Philadelphia, leaving six to be recruited in the various counties.

The Philadelphia companies are completing very slowly, while the companies forming throughout the State are rapidly filling, and will be mustered in and ready for the field long before the former. If the four companies are not recruited as soon as the other six the deficiency will be made up in other parts of the State, and thus Philadelphia will lose the credit of having furnished her quota. It is expected to have the regiment filled in about four weeks.

The same is the case with the recruiting for the additional companies authorized to be raised and attached to the Union League regiment. Recruiting for these companies is being conducted at the old city headquarters in S. Third street, where the volunteers received are generally young and healthy men from the country. This does not reflect much to the credit of our city. Those who enlist as Philadelphians, and are credited to any ward, should remember that their families are entitled to a certain weekly amount from the commission for the relief of the families of volunteers.

POLITICAL.—Judge Shannon, William B. Mann, and other distinguished speakers, will address the citizens of Philadelphia to-night, at the Union League Hall.

This evening a third debate between Messrs. Kelley and Northorp will take place at the Hall, Broad and Spring Garden streets.

This evening, at a quarter past six o'clock, the Soldiers' Campaign Club will meet at the Headquarters, Commonwealth Building, and thence proceed to Germantown, to attend the meeting there. All soldiers are invited to join the procession.

Last evening a grand meeting of the citizens of Philadelphia, without regard to party, was convened at Union League Hall, to listen to an address by General S. F. Carey, of Ohio, on the issues of the campaign. The address was two hours and twenty minutes in length, and was full of wit, anecdotes, and eloquence. It was listened to with marked attention by the audience, and the wildest enthusiasm prevailed throughout.

SCHOOL MATTERS.—The Board of School Controllers held a special meeting yesterday afternoon, to consider the subject of sectional superintending, and the giving of an assistant to the first grammar schools, as recommended by the special committee of the joint commission. It was discovered that the change would increase the expenditures of the school from seventeen to twenty-five thousand dollars, and this was the chief ground of opposition to it. After a discussion, a motion to lay the report on the table was adopted. The report of the joint commission on the subject of limitation of studies was also taken up, and the resolutions appended to it were not agreed to. Adjourned.

GRAND SWINDLING.—Yesterday afternoon a military officer, together with eight persons were arrested in Arch street above Sixth, on the charge of conspiring to obtain fraudulently the bounty money. The statement is that a certain officer, named Lee, acting as a recruiting agent, was arrested on complaint of Lieutenant Walker, acting as a recruiting officer for Captain Lane, charging the said Lee with issuing forged papers to twenty-two recruits yesterday, and obtaining the bounty money in each case. The recruits, after thus having been mustered in, were sent to camp. There will be a hearing before Alderman Beitler this afternoon, when it is expected some astounding developments will take place.

LARCENY OF COAL.—The amount of coal stolen from the cars of the Reading railroad by women and children, is much greater than most people imagine. Regular organized bands of thieves have been in the habit of making raids on these cars during their passage through the Nineteenth Ward. Some would jump in the cars, load baskets, kettles, &c., while others would run alongside and carry them off. This morning a woman, named Eliza Shaffer, was held to answer the charge of being one of the offenders. During the last few months over $900 worth of coal has been stolen from this company.

ARREST OF PICKPOCKETS.—This morning William Gleason was before Alderman Beitler, charged with attempting to pick a boy's pocket of a watch at Sixth and Chesnut streets. The lad testified that Gleason had the watch in his hand when detected. The affair happened at a late hour last night, and immediately after the arrest of Gleason two of his friends, named Charles Walker and John Saunders, went to the lad and offered him $25 not to appear at the hearing today. The boy refused to take the money, and stated the circumstances to the Alderman, who caused the arrest of both Walker and Saunders, and they, together with the real thief, were committed to stand trial at Court.

A McCLELLAN WOMAN.—This morning, two of the most filthy and dirty children we ever beheld were picked up astray by a police officer, and were taken to the Central Station to await identification. They had not been there long before the mother made her appearance, presenting the same dilapidated and God-forsaken appearance as her children. Upon her breast was a likeness of "Little Mac," and upon being questioned as to why she wore it, she remarked that she wished people to know she was a McClellan woman.

ILLNESS OF JOHN B. MYERS, ESQ.—The public will learn with regret that John B. Myers, Esq., is lying very ill at his residence in Arch street, and but slight hopes are entertained of his recovery. The disease, paralysis, has been brought on by a too close attention to the details of the immense business of the well-known firm of which he is the senior partner. Few of our citizens have a wider circle of friends, whom he has won by his genial personal manners and the spotless integrity of his business life.

A BRUTAL AFFAIR.—A little girl, aged about 12 years, was stabbed by an unknown man last evening, in Monroe street, below Third. She was walking quietly along carrying in her arms an infant, when a man on the opposite side of the street rushed over, with a knife in his hand, and thrust it into her side, causing the entrails to protrude therefrom. The little sufferer rushed into a house near by and gave the alarm, but the villain succeeded in making his escape. No cause whatever can be assigned for the murderous assault. The man, it is thought, was insane from the effects of rum.

DEPARTURE OF A COLORED REGIMENT.—The 127th Regiment, United States Colored Troops, Colonel James Given, came in from Camp William Penn about noon to-day, and made a street parade previous to taking their departure for the seat of war. The regiment is twelve hundred strong, and is composed of fine material.

DROWNING CASES.—Yesterday a boy, apparently about fourteen years of age, was found drowned at the foot of Norris street, Delaware river. The body was badly decomposed, and had been crushed between the wharf logs.

Another drowned body was found at the first wharf below Market street.

BOLD THEFT.—James McElwee was arrested yesterday afternoon to answer the larceny of some railroad iron, the property of Mr. Charles Carnell. The iron was stowed in a lot at Sixth and Berks streets, and McElwee, when arrested, had a cart backed up, and was loading it with the iron. He was committed for trial.

COUNTERFEIT NOTES.—This morning Porter Osler was before Alderman Toland upon the charge of having a lot of counterfeit money in his possession. He had one hundred and nine dollars in counterfeit notes, one of which was a one hundred dollar bill on a New York bank. He was committed for trial.

FOR THE GULF SQUADRON.—To-day the United States supply steamer *Bermuda* will sail from the Navy Yard for the West Gulf Blockading Squadron.

FOR THE FRONT.—Some time during to-day the 127th Regiment United States Colored Troops, Colonel James Given, will leave for the seat of war.

ARREST OF COUNTERFEITERS.—The Washington *Star* of yesterday contains the following:—On Saturday, we mentioned that Colonel L. C. Baker, chief of the military detectives of the War Department, had made another haul of counterfeiters. This party is composed principally of army officers, among whom is a Captain McDonald, of a Pennsylvania regiment. Another of the party arrested was formerly an army officer, and lost a leg in the service. He is a resident of Pennsylvania, and is charged with sending counterfeit money here to some of his friends in hospitals. The paper which these parties have been shoving is $3 bills on the Merchants' Bank of Philadelphia, and fifty cent counterfeit postal currency. The face of the fifty cent notes is very pale, and is easily detected, but the back is a good imitation of the genuine, and if the note is presented with the back up, unsuspecting ones would be very apt to receive them.

The parties arrested have been committed to the Old Capitol, we understand, and they refuse to tell where or by whom the counterfeits are manufactured. Colonel Baker is on the track of other parties engaged in shoving these counterfeits, and doubtless the whole party will be brought to justice.

HIGHER WAGES.—A mass meeting of the Working Women's Relief Association will be held this evening at 7½ o'clock, at Sansom Street Hall. Several prominent speakers will address the meeting.

GREAT DISPLAY OF SILKS AND FINE DRESS GOODS.—We invite the attention of our readers to the attractive card of Edwin Hall & Co., in another column. Their store at No. 26 S. Second street presents such an exhibition of richness, style, and good taste, in the way of silks and all other fashionable dress goods, as rarely can be found. Magnificent as have been the former displays of this well-known firm, they have never had as good a one as the present. Go and examine it by all means. They sell their goods will be sold according to the fluctuation of gold.

THE AGE OF INVENTION.—While a large number of Machines have been offered to the public, some of which possess points of excellence and acknowledged merit we have long felt, what others have experienced, the necessity of a Machine more perfect in its mechanical structure, combining, in the *highest degree, simplicity with durability*, and while capable of doing a *greater range of work*, one that could be easily understood and comprehended by all.

This, we are happy to say, has been accomplished by the liberal expenditure of capital, and the patient, untiring labor of years.

From its first introduction the "FLORENCE" has gained hosts of friends, and is regarded by our first families as a *household necessity*—conclusively proving what we are most happy to acknowledge, that the public fully appreciate the *utility, beauty*, and *durability* combined in the "FLORENCE MACHINE." Sold at No. 630 Chesnut street.

For the benefit of our readers we will mention some of the advantages and improvements of the Florence over all others.

It makes four different stitches, the lock, knot, double lock, and double knot, on one and the same machine; each stitch being *alike on both sides* of the fabric, and neither of them will ravel.

It has the *reversible feed motion*, and by simply turning a thumb-screw the work will run either to the right or left, or stay any part of the same, or fasten the ends of the seams without turning the fabric, thereby saving hand labor.

Changing the length of the stitch, and from one kind of stitch to another, can readily be done while the Machine is in motion.

Every stitch is perfect in itself, making the seam secure and uniform.

It is almost *noiseless*, and can be used where quiet is necessary.

Its motions are all *positive*; there are no springs to get out of order, and its simplicity enables the most inexperienced to operate it.

It will not oil the dress of the operator, as all machinery is on the top of the table.

It is the most rapid sewer in the world, making five stitches to each revolution.

Its stitch combines elasticity, strength, and beauty.

It does the heaviest or finest work with equal facility, *without change of tension or machinery.*

Every Machine has one of Jencks' patent hemmers attached, enabling the operator to turn *any width of hem desired.*

It does not require finer thread on the under side than it does on the upper.

It will sew across the heaviest seams, or from one to more thickness of cloth, without change of tension or, breaking of thread, or skipping stitches.

It has a uniform and self-regulating tension of thread.

A "*Barnum's Self-Sewer*," which guides the work itself is furnished with each machine.

While possessing the above and many other advantages, the Florence is sold at corresponding prices with other first class Machines.

There is no risk in buying the Florence, as every Machine is warranted to give entire satisfaction, or the money refunded. No charge being made for learning to operate it. We learn that an agency for the sale of these wonderful Machines is about being established in all the principal cities and towns in the loyal States, and we advise our readers (if they cannot call at the salesroom No. 630 Chesnut street) to send for circulars and samples of sewing.

TO SUIT THE FALL IN GOLD.—We see that Charles Stokes & Co., the eminent clothiers under the Continental, are making large deductions to their customers this week from the market price of their goods *to suit the fall in gold*. Although their patrons did not ask for it, nor did they expect it, yet the action in taking a proportionate price from what was paid a week ago was very well received by the buyers, increasing them strongly and favorably of the system of correct charges adopted by this house.

To-day is the time to buy at Charles Stokes & Co.'s "One Price," under the Continental.

YOU DESIRE satisfactory Pictures, go then to No. 624 Arch street, B. F. Reimer's Gallery, and see his life size Photographs in oil colors, Ivorytypes, and Cartes de Visite.

PHILADELPHIA TRADE REPORT.

WEDNESDAY, September 28.—The stagnation in business circles noted for some days past still continues. There is to-day, however, more firmness manifested by holders of stock.

—The New York *Tribune* this morning says:—"The Dry Goods auction sales yesterday were unsatisfactory to the owners of goods. At Haggerty & Co.'s the attendance was liberal. Many kinds of goods fell some 10, 20, and 25 per cent. Poil de Chevres, which two weeks ago brought 85 cents, sold at 59 and the sale stopped. Inferior qualities, from 60 to 80, sold at 42@44; 40-inch bagging and burlaps sold at from 15 to 20 per cent. below current prices. Domestic goods were firm in comparison with foreign articles. Messrs. Wilmerdings & Mount held a sale of woollen and tailoring goods of a generally inferior character. The bidding was spirited, and the quotations irregular. Messrs. Topping & Co. had a large sale of foreign and domestic goods. The sale was well attended, and the prices were satisfactory to the owners—many duplicates being sold. Messrs. Kobbe & Corlies had a sale of hosiery goods. The attendance was moderate. Balmorals, gloves, and hosiery were sold at reduced rates, some of the lots being withdrawn.

"The aggregate amount of exports of produce and merchandise (exclusive of specie) for the past week was $4,507,504."

—The New York *Times* this morning says:—"The revolution in gold and exchange, the panic in the railways and the unsettling of produce and merchandise values, have all contributed to direct popular attention, more directly, to Government securities, both gold and currency interest. The subscriptions to the new 7·30 per cent. currency interest for three years and then convertible into 6 per cent. gold-bearing stock, are on the increase throughout the country, and Treasury 6 per cent. Certificates are in strong demand at the Stock Exchange and on Wall street. At the same time the Gold-bearing Stocks of the United States have scarcely been moved from their steady position by the great revolution in the value of the gold itself, in which the interest is half-yearly paid in [illegible]

CROAKING ABOUT PRICES.

We are sorry to see that the stupid appeals are still kept up in some of the newspapers, at the head of which stand the New York *Herald*, and *World*, begging the public *not to buy articles of food and dress*, and by so doing compel merchants and storekeepers to mark down their prices; in other words, sell their goods at less than cost.

The effect of such unworthy and unfair arguments, if continued, will be to create a panic. Our retail dealers have laid in assortments of merchandise to meet the usual seasonable demands of the public. They are sensible men. They, of course, are willing to adapt themselves to the exigencies of the hour, and to regulate their prices to the satisfaction of their patrons.

But they ask their customers to come to their stores and examine and inquire for themselves. They will not submit patiently to injudicious and needless appeals to the public not to visit the stores at all, but to remain housed, in emulation of our misguided and misguiding Southern sisters, who sit in cheerless homes, in all the pomp of antiquated finery, in hoopless and shoeless misery.

Our advice to the patriotic and loyal people of Philadelphia is to be "gay and happy," regardless of cost. The war which has desolated other regions has spared this. Money is abundant, and everybody is able to enjoy the luxury of good clothes and a well-spread table.

Our community has been benefited by the struggle which Southern fire-eaters prophesied would result in bread-riots, and panics, and commercial revulsions. The grass was to grow in our streets. It has been swept down by the trains of our ladies' dresses. Because the madmen of the South have lifted their red hands against the Government, "must there be no more cakes and ale?"

Let our ladies go a shopping to their hearts' content. Let them draw on their husbands and fathers for the bills, and all will be well. Let the absurd attempt to create a panic be frowned down by every business man for the safety of the whole community.

A WORD FOR OUR YOUNG LADIES.

Modern young ladies are soundly taken to task, ridiculed, remonstrated with, satirized, and stormed at. Are they not silly, senseless, and monstrously extravagant? Do they not cause the hearts of paternal relations to sink, and their countenances to cloud, and their liveliest apprehensions of regular ruination to awake, by their unremitting cry for cash, and the perfectly frightful length of their "little bills?" Do they not spend their days before the mirror, or in flouncing along the proper promenade in a rotund and exaggerated condition, in violent confabulations with each other on the pavement, and critical surveys of what everybody has on; in vigilant lookouts for fine fellows; in thrilling glances; in fiction reading; in persevering gossip; in languid incapacity?

Are not their nights devoted to dallying dissipation in the brilliant parlor, the warm, misty ball-room, or at some other gay and festive scene? Believe Mr. PECK BUTLER'S "Nothing to Wear" and the lachrymose outbursts of snarling masculines, and these fair creatures, in the flush and fervor of their maidenhood, are heartless things.

It pains us to be compelled to confess that our young ladies (our young ladies—how nice that is to write!) are not what they might be, nor what they ought to be, by a good deal. Unquestionably, they are too stubbornly convinced that money is lying about loose, in piles and pyramids, and expressly instituted for the benefit of dress-sellers and makers. They are slightly insane. They simper, and giggle, and trot about too steadily. Occasionally, it is a martyrdom to be driven into a conversation with them. They are rather more delirious on the subject of dancing and tenors than is altogether commendable. Plain cooking finds too little favor in their sight, and piano-pounding too much.

We cannot wonder that masculine individuals of tender age feel themselves gradually congealing into bachelorhood, because they can't make up their minds to take these gay, giddy butterflies to be their partners forever until death doth them part. The prospect of domestic comfort, and an economical and happy life, cannot present itself to these willing but not able lads in an encouraging light. They know that they would need flush finances to support such delicate beings, and would be compelled to keep a large regular staff of sempstresses, cooks, and laundresses about the house. Own we must, moreover, that one is not particularly liable to meet our young ladies in dirty alleys, doing good; by the bedside of the poor wretch whose life is going out in unilluminated night; where there is suffering to be eased, and want and woe to be cast out.

And yet we will say boldly, that these targets for abuse and ridicule are better a hundredfold than the world makes them. Here is a proof, which cannot be got over easily, we take it. Up in Salem, Massachusetts, a bevy of girls (blooming and beautiful, of course) came to the conclusion the other day that the state of the money market was distressing and lugubrious. They had hitherto been bent upon having tasty winter bonnets; no doubt, of those pretty hats, trimmed with flowers and feathers, they had dreamed through many a night. They had pictured their captivating appearance in these diminutive appendages to the extreme rear of their coquettish heads. What did they do? Sit down and go into a pet because the times were unfavorable to novelties in the head-gear line? Resolve not to stir out of the house all winter? No! They went straightway to work—to their everlasting honor be it said—and made their own bonnets! With the fifty-dollar notes which would have gone to the fashionable milliner, they will gladden many a cold and cheerless hovel next winter, when it is bitterly cold, and there is little for the poor to eat, and to put on their shivering, shrunken bodies. We know they will, for it strikes us forcibly that girls who will give up their new bonnets in the latest Parisian style, and go not near the makers thereof, will do anything that is good, and noble, and lovely to behold and think about.

These young ladies of the town of Salem, we desire to believe, are not isolated examples of modern belles and sweethearts, with generous souls and sensible views of matters and things in general. Our Chesnut street and Academy dears will be eager to imitate their Massachusetts sisters, we are convinced; and with all this confusion and distress around them, will cease to be needlessly extravagant, and strive to act like FLORENCE NIGHTINGALE—with her gentle, earnest, active sympathy for her fellow-creatures—although the cries they hear come not from tented fields bathed in blood and shrouded in smoke.

For our part, we are sensible of a warm feeling of respect, not to say affection, for "our young ladies." It would not be well for any of them to approach us too closely at this time. If any of them are disposed to be better than they have ever been before, and to do without new bonnets this winter, we hereby express our willingness to hold their old ones, while they go in and do their poor brothers and sisters good. Meanwhile, we hear of no strong and superior men, in Salem or anywhere else, making their old coats do awhile longer, reducing their diurnal allowance of Havana weeds, or other refreshments, or letting themselves down, unmurmuringly, to a less expensive manner of living. We should certainly advise all those unfortunate fellows who have been afraid to propose to our home damsels to migrate to Salem, Massachusetts, and lay siege to the hearts of the girls who make their own bonnets!

PENNSYLVANIA RAILROAD COMPANY AND ITS MANAGEMENT.

A thorough investigation of the late accident on the Pennsylvania Railroad has been made by the officers of that company. Testimony has been taken upon all sides, all of which goes to show conclusively that the accident was caused by the disobedience of orders of the conductor of the coal train in not keeping upon schedule time. The passenger train had the right of way to the track, and its conductor and engineer could not, of course, expect anything to be in the way.

The attempt on the part of New York journals in the interest of rival routes through New York to hold the management of the Pennsylvania Railroad responsible for this unfortunate accident, will utterly fail with those who are familiar with the perfect system which prevails over its entire line.

The confidence felt by the travelling public in the comfort and safety of this route is best shown by the fact that its business has increased so rapidly within the last few days as to compel the addition of another fast through train, which will leave here at 8 o'clock in the evening.

Orders have been issued to prevent, for the future, the locking of the car-doors while the train is in motion. Heretofore, a single door has been locked between the way and the through passengers, to protect the privacy of the latter class. Under the new arrangement this door will open on the inside only, which will allow the exit of passengers at any time, but will prevent the entrance of rude and disorderly persons among families and ladies.

DISGUSTING BLASPHEMY.

AUGUST BELMONT, is the agent of the house of ROTHSCHILD in New York, himself a "Jew of the Jews." He is the owner of the New York *World*. In an editorial this morning he makes an attack upon the *Independent*, the chief evangelical religious paper in the country, for its support of Mr. LINCOLN.

But we submit that Mr. BELMONT has no right to insult Christian people of all denominations by such unheard-of blasphemy as disfigures and disgraces his sheet this morning.

The article closes as follows:—

> "Let Mr. LINCOLN be re-elected, and we have only too good reason to know that the bargain for the *Independent's* support of his candidacy will be carried out. 'Our father which art in shoddy' will again become the prayer; and the pious owner of the pious *Independent* will again exclaim, and not without avail, 'Give us this day our shoddy bread.'"

Mr. BELMONT may endear his cause to the burners of Orphan Asylums by such degrading and brutal course, but he will drive still further from it the great Christian heart of the world. Our people will not submit that the founder of their faith shall be "scourged afresh by hands accursed." Mr. BELMONT'S ancestors learned something from the Roman soldiers at the foot of the cross. He may yet be taught decency by American soldiers, who fear God and love their country.

WANTED—A PROCLAMATION.

It is a phantom of constant fear and alarm to the New York *World* and Philadelphia *Age* that, upon Mr. LINCOLN'S re-election, the doctrine of miscegenation is to be put in practice. Will not Mr. LINCOLN issue a proclamation granting exemption to all connected with those papers from the necessity of marrying negroes, unless of their own free will and accord?

A GOOD TIME COMING.—Consumers of coal may take heart. At the great auction sale of about thirty thousand tons of Scranton coal held in New York at noon to-day there was a reduction of three dollars per ton from former prices.

Card—A Correction—104th P. V.

PHILADELPHIA, Pa., September 27, 1864.

To the Editor of The Evening Telegraph:

SIR:—In an article relating to the 104th Pennsylvania Volunteers, which has been published in several papers of the city, a statement has been made to the effect that the undersigned was "the drill master" of the regiment, and ascribing the high state of discipline of the 104th to his instruction. I would ask that as an act of justice to all parties concerned, you will correct this statement. There is no such officer in the regiment as "drill master." The 104th was drilled by its commander, Colonel W. W. H. Davis, and the officers of the regiment, and whatever credit may be attached to their efforts should be shared, as have been the perils and hardships of three years' service, by each and all as their several positions required.

Very respectfully, your obedient servant,
E. A. WALLAZZ,
First Lieutenant and Adjutant 104th P. V.

—In Cincinnati the consumers of coal have enough of that expensive mineral on hand to last till May of next year.

—A prominent citizen of Boston is about to open a house for incurable consumptives. This is the first institution of the kind opened in the world.

—An estimate has been made, by which it is proved that a glass of whisky costs more than a newspaper. We should think so, when the tax is considered.

—At a factory in Franklin, Mass., a boiler exploded and carried a young girl up to the ceiling of the room in which she was working, without seriously injuring her. Tough, but true.

—A natural eel pen, in the rock, communicating with the sea by a small aperture, and filled with myriads of wriggling eels, has been discovered at Point Brule, on the St. John river.

—A prize of $10,000 was offered by Napoleon for the most useful application of electricity. It was awarded to Mr. Ruhmkorff, for his invention of induction coil.

—A lady in Portland caught a boy sixteen years old in her garden after the fruit, attacked and captured him and locked him up in the cellar till her husband came home. She was smart.

"OIL STRIKE.—The 'Wheeling Intelligencer' says:—We learn from a gentleman who arrived yesterday from Pleasants county that on Monday the Burton Oil Company struck a well on Horse Neck, which will yield a thousand barrels of oil per day. There is great excitement on the subject in this vicinity, and the oil fever is prevailing to a fearful extent."

SOLDIERS' ORPHANS.—THE ARRANGEments for the education and maintenance of the destitute Orphans of the Soldiers and Sailors of the State, under the act relating to the subject being now sufficiently completed to enable the undersigned to receive applications, notice is hereby given that blank forms of application, with the necessary instructions, have been deposited with the following gentlemen, from whom the relatives or friends of the orphans can obtain them.

When the application and statement in each case shall be properly filled and sworn to, and certified by the Board of Common School Directors of the District in which the orphan resides, it is to be returned to the gentleman from whom it was received, or to some other member of the County Superintending Committee, by whom it will be forwarded to the undersigned.

In a short time after the receipt of the application by the undersigned, if it be in due form, and the orphan be entitled to the benefits of the act, an order for the admission to the proper school will be sent by mail to the mother, or other applying relative or friend, with necessary instructions.

It is expected that the schools selected for these orphans will be ready for their reception during the month of October. Their friends will therefore take the necessary steps and have them ready for admission by the 1st of November at the latest.

The State will provide clothing, boarding, washing, mending, instruction books, &c., for the orphans while in the schools provided for them, but the relatives or friends are expected to send them thither without cost to the State, and also to send with them, in as good order as possible, such clothing as they may then have, to be worn till others can be provided for them.

HANGMAN FOOTE ON PEACE.

From the Tribune.

Hon. and General Henry S. Foote, who used to be a Union Democratic United States Senator from Mississippi, but who is (or lately was) a Confederate M. C. from Tennessee, and who wanted personally to hang John P. Hale for avowing his hatred of slavery, has been stirred to exultation by perusing the sayings and doings of the late Chicago Convention, and blows off through a letter to the Richmond *Whig*. Foote sees land at last—no delusive fog-bank this time; and, while he propounds that the triumphant Confederacy must "allow the first formal proposition of peace to originate with our adversaries," thinks the independence of the Confederacy is secured by the Chicago development. He says:—

"If it be true that an out-and-out peace platform has been adopted in the Chicago Democratic Convention, and out-and-out peace candidates for the Presidency have been nominated, then it must be evident to all men of the shrewdness and sagacity of William H. Seward and his unprincipled associates, that the defeat of their corrupt and dishonored faction in the approaching Presidential election is sure; that if McClellan and Pendleton are elected, outraged and indignant public sentiment will demand the arraignment, trial, and deserved punishment of the enormous traitors and murderers who are responsible before God and man for all the abominable crimes and mischiefs which this unpardonable war has produced; and they will, most naturally, aim to evade the menaced punishment."

Foote sees that the talk at Chicago of a "Convention of all the States" with a view to a restoration of the Union, is the merest bosh—that it is a very thin disguise for surrender at discretion. He says:—

"The Chicago Convention has now nominated its candidates for the Presidency and Vice Presidency, and enunciated a platform of principles. The action of that body seems to have been well nigh unanimous in regard to all important questions. I hold it to be most certain, whatever opinion may be uttered in certain quarters to the contrary, that the platform is in distinct and irreconcilable opposition to the further prosecution of the war for any purpose whatever; the second resolution of said platform is of unmistakable import, and how any man of discerning mind can entertain a different view of the matter, I am at a loss to conceive. The resolution referred to, in the most emphatic manner denounces the 'experiment of war' as a means of restoring the Union; declares that 'justice, humanity, liberty, and the public welfare demand that immediate efforts be made for a cessation of hostilities;' that though the most earnest [illegible] is expressed for the restoration of the Union by peaceable means, there is not the least hint of intended restraint of any kind whatever."

At last, the thought strikes him that there *may* be some chance of McClellan's defeat; but he has taken sweet counsel with his Copperhead friends, and knows what they will do in that contingency. Hear him!

"Should the Chicago nominee be defeated, as I believe to be scarcely possible, such a result would be as clearly attributable to force or fraud, on the part of the unprincipled faction now in power, that it could not be reasonably expected that the great body of the States Rights Democracy of the North, now so fully and deliberately committed to inflexible opposition to the atrocious despotism organized in Washington city, would be found willing to submit to that despotism for four years more. I venture to predict, therefore, that should McClellan and Pendleton be defeated, the States in which the Republican Presidential ticket shall be found to have failed, with a view to securing themselves from threatened enslavement, will themselves promptly secede from the Federal Union; that one or more new Confederacies, based on true State Rights principles, will be immediately formed, which must naturally seek a military alliance with the Confederate States, after which, as is most manifest, this most unnatural and exhausting war would be soon promptly brought to an end."

Poor Foote! poor Confederacy! poor Copperheads! naughty Phil. Sheridan! how could you rudely shatter such roseate visions of peace and bliss? You ought to be ashamed of yourself!

Mr. Nasby Waileth Muchly!

THE NEW MASONIC HALL.—We learn that the Masonic fraternity of this city have made a purchase of the fine property (late the private residence) of Mr. Hudson Taylor, corner of Ninth and D streets, for the erection of the grand Masonic Hall for which they secured a charter at the last session of Congress. The price paid for the property was $15,000, we hear. It is a fine position for the purpose.—*Washington Star.*

—The members of the City Government of Toronto, C. W., have been on a visit to Boston.

—An iron cell has been manufactured in Kentucky for the use of Rebel prisoners on board Government vessels. It is 7 feet long, 6 feet wide, and 6½ feet high.

—There is a wooden railway in New Zealand, over which an eight ton engine has made 1800 trips in 5 months, drawing loads of 30 to 40 tons, with so little friction as not to efface the saw marks on the rails.

—The original quarto plays of Shakespeare, the first printed drafts of the bard's dramas, and of the highest literary interest from the fact of their having been originally published in his life-time, are about to be reproduced in London in *fac simile* by photo-zincography.

—A jealous husband at St. Louis, recently spied around his house and rushed, as he supposed, upon his wife and a strange man in his garden. Just as he was about to open the stranger with a big knife, the lady revealed herself as his cook, and the young man was found to be her lover. He was spared.

—Many of the attendants at the British Museum have been booksellers' assistants, others clerks in merchants' offices. These men have generally been used to the old-fashioned dinner hour—the hour of the carpenter and the mechanic, and not the snack of the banker's clerk, who goes home to dine. It has pleased the authorities to do away with this hour, when the assistant usually went out, and in its place to give half an hour's respite from official duties, which is to be passed in the building.

—The proposal by the Democrats to stop fighting the Rebels, and look sweetly at them, and talk soft words, reminds a contemporary of the following verse from a somewhat popular work:—

There was an old man who said, "How
Shall I flee from this horrible cow?
I will sit on the stile
And continue to smile,
Which may soften the heart of this cow."

PROCLAMATION BY THE GOVERNOR.

PENNSYLVANIA, ss:
A. G. CURTIN.
IN THE NAME AND BY THE AUTHORITY OF THE COMMONWEALTH OF PENNSYLVANIA
ANDREW G. CURTIN,
GOVERNOR OF THE SAID COMMONWEALTH.
A PROCLAMATION.

Whereas, By the third section of the Act of the General Assembly of this Commonwealth, passed the twenty-second day of April, A. D. one thousand eight hundred and fifty-eight, entitled "An Act to establish a Sinking Fund for the payment of the Public Debt," it is made the duty of the Secretary of the Commonwealth, the Auditor-General, and State Treasurer, Commissioners of the Sinking Fund, created by said act of the General Assembly, on the first Monday of September, A. D. one thousand eight hundred and fifty-nine, and on the same day annually thereafter, to report and certify to the Governor the amount received under the said act, the amount of interest paid, and the amount of the debt of the Commonwealth redeemed and held by them; whereupon the Governor shall direct the certificates representing the same to be cancelled, and on such cancellation issue his proclamation, stating the fact, and the extinguishment and final discharge of so much of the principal of said debt:

And whereas, Eli Slifer, Isaac Slenker, and Henry D. Moore, ex-officio Commissioners of the Sinking Fund, in obedience to the requirements of law, report and certify to me that the debt of the Commonwealth of Pennsylvania, redeemed and held by them from the seventh day September, A. D. one thousand eight hundred and sixty-three, to the fifth day of September, A. D. one thousand eight hundred and sixty-four, amounts to the sum of two hundred and sixty-eight thousand five hundred and sixty-nine dollars and fifty cents, made up as follows viz.:—

Five per cent. Loan of the Commonwealth.... $268,308·03
Interest Certificates redeemed.... 261·47
Total.... $268,569·50

Now, therefore, as required by the Third Section of the Act of Assembly first above mentioned, I do hereby issue this, my proclamation, declaring the payment, cancellation, extinguishment, and final discharge of two hundred and sixty-eight thousand five hundred and sixty-nine dollars and fifty cents of the principal of the debt of this Commonwealth.

Given under my hand and the Great Seal of the State at Harrisburg, this twenty-second day of September, in the year of our Lord one thousand eight hundred and sixty-four, and of the Commonwealth the eighty-ninth.

By the Governor:—
ELI SLIFER,
9 24-3t Secretary of the Commonwealth.

UNITED STATES
7-30 LOAN.

The Secretary of the Treasury gives notice that subscriptions will be received for Coupon Treasury Notes, payable three years from August 15, 1864, with semi-annual interest at the rate of seven and three-tenths per cent. per annum,—principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder, at maturity, into six per cent. gold-bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of $50, $100, $500, $1000, and $5000, and all subscriptions must be for fifty dollars or some multiple of fifty dollars.

As the notes draw interest from August 15, persons making deposits subsequent to that date must pay the interest accrued from date of note to date of deposit.

SPECIAL ADVANTAGES OF THIS LOAN.

IT IS A NATIONAL SAVINGS BANK, offering a higher rate of interest than any other, and *the best security*. Any savings bank which pays its depositors in United States Notes considers that it is paying in the best circulating medium of the country, and it *cannot* pay in anything better, for its own assets are either in Government securities or in notes or bonds payable in Government paper.

CONVERTIBLE INTO A SIX PER CENT. 5-20 GOLD BOND.

In addition to the very liberal interest on the notes for three years, this privilege of conversion is now worth about three per cent. per annum, for the current rate for 5-20 Bonds is not less than *nine per cent. premium*, and before the war the premium on six per cent. United States Stocks was over twenty per cent. It will be seen that the actual profit on this loan, at the present market rate, is not less than ten per cent. per annum.

ITS EXEMPTION FROM STATE OR MUNICIPAL TAXATION.

But aside from all the advantages we have enumerated, a special Act of Congress *exempts all bonds and Treasury notes from local taxation*. On the average, this exemption is worth about two per cent. per annum, according to the rate of taxation in various parts of the country.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties, or stock companies, or separate communities, only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

Up to the 24th of September, the subscriptions to this loan amounted to over
$10,000,000.

SUBSCRIPTIONS WILL BE RECEIVED by the Treasurer of the United States, at Washington, the several Assistant Treasurers and designated Depositaries, and by the
FIRST NATIONAL BANK OF PHILADELPHIA, PA.,
SECOND NATIONAL BANK OF PHILADELPHIA, PA.,

BURNS' COTTAGE.—This ever popular, cozy, and well-known place of welcome visitation, at the S. E. corner of SIXTH and MINOR Streets, is doing a most thriving business, under the auspices and immediate supervision of
ADMIRAL JAMES NELSON,
PROPRIETOR.

The Admiral spares neither time, money, nor attention to supply his patrons with the choicest Wines and Liquors, and superior Scotch and Old Stock Ale on draught, which cannot be equalled in Philadelphia.

Let every man who loves his country and is fond of a good drink, give the Admiral a call. au30-1m

FLOURISHING HOTELS.—AMONGST THE public houses in and around Philadelphia, there are none to surpass the new "TONTINE," in SEVENTH Street, above CHESNUT; or, the old and well known "ROUGH'S" Hotel, at the corner of NICETOWN Lane and TOWNSHIP LINE Road. Mr. GEORGE W. KOHL is Proprietor of both, which is indeed a sufficient guarantee for their entire success. The very best of every thing eatable and drinkable will be found at each place, and, notwithstanding the times are out of joint, the terms will be quite low. WEDNESDAY, SEPTEMBER 28, 1864.

AN AUTUMN SONG.

Across the stubble glooms the wind,
High sails the lated crow,
The west with pallid green is lined,
Fog tracks the river's flow.

My heart is cold and sad. I moan,
Yet care not for my woe.
The summer fervors all are gone;
The roses! Let them go.

Old age is coming, frosty, hoar,
The snows of time will fall,
My jubilance, dreamlike, no more
Returns for any call.

O lapsing heart! thy feeble strain
Sends up the blood so spare,
That my poor withered autumn brain
Sees autumn everywhere.

"The Warren Comedy Combination."

As this company is to perform at Grover & Sinn's New Chesnut Street Theatre on Monday next, it will be interesting for our readers to know what and who they are going to see. The combination consists of Mr. Warren, the famous Boston actor, and one of the best comedians in the higher walks in this country. Miss Josephine Orton, an importation—a small parcel of excellent goods—is a member of the company. Miss Emily Mestayer is also one of these stars; we need only say that she is a daughter of Mr. Mestayer of the Old Chesnut Street Theatre, and a sister of Mrs. Barney Williams and Mrs. W. J. Florence. Mr. Charles Barron is also a member of the company.

He is already a great favorite here, having played with Miss Charlotte Thompson at the Walnut, last year. Remember, this is the last week of the *Sea of Ice*, and on next Monday evening the Warren Comedy Combination will give us a little season of legitimate and standard old comedies. They will all be put upon the stage in the very best style. We cannot do better than give here the following criticism from the pen of the able theatrical critic of the Baltimore *Sunday Telegram*:—

"Mr. Warren's reputation preceded him to this city; but great as were the expectations formed of him, they have been exceeded by witnessing his performances. He has appeared in a most varied round of characters during the week, each distinct and calling for different qualities in the actor, and yet he has been equally great and successful in all, showing thereby a wonderful versatility, and betraying the true artist of genius. His 'Sir Peter Teazle' was a most finished performance, and his exquisite delineation both surprised and delighted all who witnessed it. 'Dr. Pangloss,' a character cast in an entirely different mould, was also rendered with equal finish. In fact, it would be difficult to say in what character he excelled where all were so perfect. The pretty and fascinating Miss Josie Orton is a most accomplished and brilliant actress, and her sprightliness, her vivacity, and her dashing and artistic style created a great sensation. Her grace and finish are perfect, and she enacts every part she undertakes with an earnestness and fidelity to nature that are beyond all praise. Her 'Lady Teazle' was a most beautiful and finished performance, and the spirit and vigor with which she enacted 'Lady Gay Spanker' created a perfect *furore*. Her 'Cicely Homespun' was equally as successful, and she has shown during her performances of the past week that she is gifted with genius of the highest quality. Miss Emily Mestayer is a most accomplished artiste, and in the parts which fell to her lot she showed herself to be the finished actress than the perfect lady. Mr. Charles Barron is a young actor who is destined to occupy the highest niche in the temple of fame. His style is characterized by vigor and finish, and everything he has done has been well and artistically rendered. Much praise is due to the members of the regular stock company for the manner in which they have sustained the 'stars,' showing by their spirited acting that they felt and took a deep interest in carrying through the different pieces triumphantly. Altogether, the combination has richly deserved the great success it has met with, and it would be impossible to say more."

THE STATE AGRICULTURAL FAIR AT EASTON.

Correspondence of The Evening Telegraph.

EASTON, September 26, 1864.

All is bustle and confusion here. The preparations which for some time past have been making for the great Annual Fair of the Pennsylvania State Agricultural Society, are nearly completed, and the results are shown in the most complete arrangements and accommodations for visitors as well as stock, which the Society has ever effected. The grounds selected for the exhibition are those of the Northampton County Agricultural and Mechanical Society. They embrace some eighteen acres, all substantially fenced, and admirably adapted to the purposes of a large exhibition. Within this enclosure are the shedding, pens, &c., for cattle, horses, swine, and sheep, and these are sufficiently numerous to meet the most extensive demands of exhibitors.

At the eastern end of the enclosure is the main exhibition hall, a large and very handsome two-story structure, surmounted by a lofty cupola, from which a fine view of the delightful scenery by which Easton is surrounded is obtained. Easton stands at the junction of the Lehigh and Delaware rivers, and, so far as situation is concerned, may be regarded as one of the most beautiful inland towns of the State.

In addition to this large building, there are erected, at appropriate points, mammoth tents, set apart for the exhibition of fruits, flowers, plants, shrubs, vegetables, ornamental designs, &c. The Fruit Department will be under the special superintendence of the members of the Fruit Growers' Society of Easton, Pennsylvania. This fact alone is a guarantee that the display in this department will be superior; and I learn from the members already in attendance, that their anticipations in regard to it will be more than realized.

The Floral Tent has already assumed a very beautiful appearance, which by to-morrow will be greatly improved, as wagon load after wagon load of the plants and flowers arrive hourly.

The Implement Department will also be well represented. Prominent among the noticeable features will be Fowler's celebrated Steam Plough, which has been operated successfully for some years past in England. There are other novelties in the way of implements and machines, of which more hereafter.

Stock is arriving in large numbers, and the display promises to be excellent. There will be several fine herds of cattle, and some of the best sheep and swine in the country.

The track is a splendid one, and as the premiums offered for the fastest nags are very liberal, there is no doubt but that the sports of the ring will form a marked and very attractive feature of the Fair. Some of the best horses in our own State, as well as from New Jersey and New York, have already been entered, and the list of competitors for the various prizes will be a long one.

Already the principal hotels are well filled. Prices are moderate, and fare good. Special trains will be run over the North Pennsylvania, Lehigh Valley, and Philadelphia and Trenton roads at reduced rates of fare, and at frequent intervals, and at such low rates that a great many persons have secured quarters at the commodious and elegant hotels of Bethlehem and other towns along the road.

Many Philadelphians are already here, and we hope to see a great many more. The weather is delightful, the ride a short and exceedingly pleasant one, and the fare for the round trip very moderate. Yours, truly, S.

An Epitome of "Jeff's" Life.

John Wentworth, at the late Chicago meeting, said:—

"Jefferson Davis entered Congress about the same year that I did. I have met him often and knew him well. But there was this difference between Jeff. Davis and me:—I paid for my education, Jeff. didn't for his. He was taken at a tender age and placed at West Point, and your father and mine were taxed to pay for the instruction that rescued him from oblivion. We made the very common mistake of judging by his head rather than his heart, and did not notice the viper that was coiling there, and which we nursed into life to sting us if possible to death. When his school-boy days were over Jeff. was sent out West—out West here at the Government's expense—and spent a year or so surveying around Calumet, fishing, and lounging, and shooting grouse at Government expense, and eating them himself. (Laughter.) He then married into the Government; his wife being a daughter of General Taylor, who was supported by the Government; went to the Mexican war, and returned to become Secretary of War, and to vilify the gallant soldiery of Illinois for their part upon the field of Buena Vista. For this Governor Bissell called him out, but on this particular occasion Jeff. didn't come out." (Great laughter.)

Sheridanis.

Early birds catch the worms; Sheridan catches the Early birds.

One charge the Copperheads can't bring against the Government—Sheridan's cavalry charge.

It has been reported that Sheridan is dead. No such thing. He is just bringing out a new play, entitled "Early Chasenings" (Chastenings).

It is said of the recent operations in the valley of the Shenandoah, that the "Early bird" has got his "Phil."

Sheridan's comedies are no longer performed on the Southern stage; they have given place to Sheridan's tragedies.

The Cops can't complain that Sheridan does not prosecute the war on truly peaceful and religious principles, when he can produce 21 cannons to the contrary.

"Sheridan is a trump," said Jones.

"What kind of a trump," asked Brown—"spades?"

"No, sir; *clubs*."

FOURTH EDITION

Gen. Grant's Army.

MOVEMENTS OF SECRETARY SEWARD.

IMPORTANT FROM RICHMOND.

TALK OF EVACUATING THE CITY.

Narrow Escape of Mr. Seward.

Special to The Evening Telegraph.

WASHINGTON, September 28.—The mail steamer *Vanderbilt*, from City Point, reports that early yesterday morning there was some firing along our lines fronting Petersburg, but not sufficient to indicate that an engagement was in progress. The *Vanderbilt* brought up twenty-five deserters, mostly unassigned conscripts from workshops at Richmond.

They say that the recent order of the Confederate authorities, taking from the Government shops mechanics heretofore exempted, has caused a general stampede among the workmen. A large Government establishment at Richmond, known as the "Anderson Shop," has lost one hundred and eighteen men within a week, who have run away with the intention of coming North.

Early's defeat has caused great despondency in Richmond, and the Rebels fear that Sheridan will be able to reach Lynchburg, and from that point cripple the Danville road, thereby effectually cutting off their supplies.

The prospect of having to evacuate Richmond is freely talked of, and it is noted that several Government workshops have already been closed up, and the machinery taken further South.

At Point Lookout a number of Rebel officers were taken on board, who are to be transferred to Northern prisons.

Secretary Seward has returned from his visit to the front. He reached City Point in company with the Hon. W. E. Washburne on Sunday morning, and, accompanied by Generals Grant, Meade, and Warren, proceeded to the works in front of Petersburg.

The evening was spent at General Grant's modest tent headquarters, where the party dined. On Monday morning the party went up the James river on the steamer *Baltimore*. General Butler, General Ord, and General Birney, on Butler's steamer *Greyhound*, joined them on the way, and the two boats steamed up to within a mile of Dutch Gap.

Here the party embarked in Butler's six-oared gig, as affording a less conspicuous mark for Rebel shells, and proceeded to the mouth of the canal and inspected operations there. Scarcely had they left on their return, when the Rebels opened fire on the working parties at the canal, and were replied to by our guns on the bluff. Some of the shells struck unpleasantly near the distinguished party.

On the way down the James river the two boats were lashed together, and the parties dined on board the *Greyhound*, and when below City Point the two boats separated, and the *Baltimore*, with Secretary Seward and party, started for Washington.

When in the bay about 10 o'clock at night, the crank-pin of the *Baltimore* broke, and the vessel was disabled, but by sending up rockets and firing guns the attention of the steamship *Warrior* was attracted, which took the *Baltimore* in tow, bringing it up to Washington.

The Maine Election.

GARDINER, September 28.—The official returns from 475 towns, cities, and plantations, or nearly the whole vote of the State, foots up as follows:—

Cony, Republican..........62,389
Howard, Democrat..........46,476

Majority for Cony..........15,913

Last year the vote in the same towns stood:—

Cony, Republican..........67,799
Bradbury, Democrat..........50,235

Majority for Cony..........17,5[illegible]

The vote on the constitutional amendment to allow the soldiers absent in the field to vote stood—in favor of its adoption, 69,550; and against it, 19,127.

DECEASE OF JOHN B. MYERS.

We regret to have to announce the death of JOHN B. MYERS, senior partner of the Dry Goods Auction House of JOHN B. MYERS & Co., formerly MYERS & CLAGHORN. The sad event occurred about 9½ o'clock this morning, at his residence. Mr. MYERS has been ill for several weeks with diabetes, and his death was not unexpected.

SERIOUS ACCIDENT.—At 1 o'clock this afternoon, while the colored parade was passing Fifth and Chesnut streets, a number of the employees gathered around the second story window of Rockhill & Wilson's store. Two of the men, named John Boehringer and Adam Kressler, who were standing on the edge of the window, lost their balance, and fell. In falling, they passed through the awning, down to the pavement. Boehringer, residing at Sixth and Wall streets, was so severely injured about the head that his recovery is considered doubtful. Kressler was not seriously hurt. Both the sufferers were taken to the hospital. Kressler resided at No. 518 Owen street.

COAL.

The Pottsville *Miners' Journal* says:—

The demand for coal is slacking off, and purchasers are demanding a reduction of at least two dollars a ton, otherwise they refuse to make any engagements.

The shipments are heavy again this week, and the consequence is that a large number of cargoes remain unsold at New York and Boston, and the stocks are accumulating at the different shipping ports.

We understand that a general and large reduction in the price of wages will be required on the first of October to meet the present state of the trade. The trade abroad will not increase their stocks at present rates in the face of a decline.

It has been suggested that if the price of coal and wages must recede, that the prices of transportation ought also to recede and bear their portion of the reduction. The high rates charged by the transporting companies were predicated on the high prices at which coal sold at auction at New York in July last. These sales showed a decline at the close of August, and if continued will no doubt show a further decline this month. To place our region in a competing position with the other regions would seem to require that the transporting companies should share a portion of the decline also.

Truth is mighty and must prevail; error is impregnated with death—consequently must sooner or later sink into oblivion.

In all the universe there is nothing so completely swallowed up in error as the facts, forces, and motives connected with the physical and mental constitution of the race.

This sad state of things is the result of ignorance and blindness on the part of those who profess to administer health and life to the people, while in fact, the majority ignore God from the system altogether. All Physics find their existence in metaphysics, and can never be understood apart from the same.

There are men who make a business of treating specific diseases. They prepare instruments, too barbarous to think of, with which to experiment on poor silly victims, who have strength, neither physically nor mentally, to undergo such *death dealing experiments*.

He who created the human body always speaks of it as a mighty whole, and the man must be a knave or fool who would attempt to divide the system into sections, and treat any disease specifically, independent of the parts or mighty whole to which they belong. All such practitioners treat effects, but know nothing of the cause whatever. Thus the world is nothing less than a vast hospital.

The alarming condition of the people generally, especially the young, who are sold with disease beneath—begin to bud into life, together with our sad experience in having been bereaved of dear friends, who have passed into untimely graves by being treated on.

These circumstances, with many others which might be mentioned, are an irresistible stimulus to the people to demand of every man who has the life and health of themselves and their loved ones in his hands, and is continually administering medicines which the patient is not allowed to know the name or nature of, I say under these circumstances the people have a right to demand of every such physician to furnish them with a chart of his character, that they may know his qualifications, &c., &c.; indeed every physician should be compelled to have it hung up in his office at all hours. It is only through this channel that the public can have any safety or guarantee for what is most dear to it—life and health; otherwise life may be in the hands of a man more qualified for a blacksmith than a physician.

It is this way inherent qualifications, which are indispensable in a physician, are sure to be detected in a child. Were this universally done, thousands would leave the profession which nature never qualified them for. If nature qualifies not there for such suitable qualification, as, in order to detect the first cause of disease, it is requisite and indispensably necessary to inherit Casuality. Metaphysical Power and Constructiveness must also be inherited by all who would be successful in finding an antidote capable of destroying the cause of disease. There is no channel by which the causes can be reached with certainty but the one I have discovered.

Therefore I say, with confidence to the world, that, it is through inheriting these rare combinations of character that I have been enabled to detect the first cause of disease. The cause is not, as was supposed by [illegible] a disease. I [illegible] an [illegible] law between soul and body, which, the Apostle Paul tells us, is always warring against each other. This law sends forth stoppages; these stoppages produce disease in diversified forms, and if disease is experimented on or tampered with it takes a firmer grip of the constitution and multiplies in other forms and other localities of the system, thus destroying the whole machinery of the human body.

Remember, the Stomach and the Liver have nothing to do with the cause of the disease. The treating of these organs, for the cause, has sent millions to an untimely grave.

With confidence I say to the world that my Metaphysical Discovery is the only remedy ever offered to the world which will thoroughly annihilate the root of disease. This discovery consists of three distinct preparations; one for the scalp, one for the eyes, and one for the ears. The whole in conjunction, and strike at the root of all disease. When I say all, I mean every disease that ever infested the human body.

A LADY IN THE LAST STAGE OF CONSUMPTION CURED.

From the Boston Journal.

JULY 27, 1864.—I, Mrs. Nancy Sloan, of No. 55 Warren street, Charlestown, do certify that I have been afflicted [illegible] years. My right side was so paralyzed that I could not be on it. During that time I suffered from catarrh, sore throat; would cough from one to three hours at a time; was very nervous; seldom could sleep at night. I had a lung fever two years since, which reduced me to a skeleton. I had all the medical advice and medicines money could procure, but all to no purpose. I was fast sinking in the last stage of consumption. I was confined to bed when Mrs. M. G. Brown's Metaphysical Discovery was sent me. It was applied according to directions. I felt no better, but rather worse for some time.

My friends wanted me to give it up, saying it would kill me; that I was too far gone and too weak to try anything new. But my mother said I would die if I did not find relief in the Discovery, and as it was the last trial to cure me she would persevere. We soon found that it was the circulation which was rushing into my system which was taking effect. As the circulation kept increasing my disease began to break up. It was six weeks after I began to apply the medicine before I could gather strength to go into Boston to see Mrs. M. G. Brown, and then I had to have help. The second time I ventured I went without help, and the third time I found my way without any difficulty. I began the use of the Metaphysical Discovery in May, and the result is on this 27th of July, that health and strength is fast returning to my emaciated frame.

My paralyzed side is restored to vigor; I can now rest well on it. My catarrh is gone. My cough, my nervousness, and sore throat are gone. I sleep well. All my irregularities have disappeared, and I must acknowledge that, by the providence of God, I was directed to the use of Mrs. M. G. Brown's Metaphysical Discovery, and by it taken from the mouth of the grave and restored to my family and friends. I know my diseases are gone, and a general circulation has taken place, but expect it will take time to regain my lost flesh and strength.

REMARKABLE CURE OF DEAFNESS OF TWENTY YEARS' STANDING.

I, John A. Newcomb, of Quincy, do certify that I have been entirely deaf in my left ear for twenty years, and for the past six years my right ear has been so deaf that I could not hear conversation or public speaking of any kind. I could not hear the church bells ring while I was sitting in the church. I have also been troubled for a number of years with a very sore throat, so that I was obliged to give up singing in the church, for I had lost my voice. I had great roaring in my head, terrible noises, almost to craziness. My head felt numb and stupid, and was a source of constant trouble to me.

I tried every remedy that could be thought of. I went to aurists; but as they wanted to use instruments I would have nothing to do with them. About one month since I obtained Mrs. M. G. Brown's Metaphysical Discovery, and used it according to the directions on the bottles. And the result is that the hearing of both ears is perfectly restored, so that I can hear as well as any man. The great trouble in my head is entirely gone. My head feels perfectly easy and at rest. My throat, which was so diseased, is entirely cured, and I have recovered my voice again. I would not take one thousand dollars for the benefit I have received in the use of Mrs. Brown's Metaphysical Discovery.

REMARKABLE CURE OF DISCHARGES FROM THE EAR, DISEASED EYES, AND LOSS OF INTELLECT.

[illegible], November 7, 1863.—I, Henry Marcello, [illegible] Mr. [illegible] coal yard, [illegible] son Joshua had brain fever [illegible], which left him with discharges [illegible]. The discharges never [illegible]. His eyes became quite large and unnatural, [illegible] the [illegible] were they with the discharges. It would be impossible to describe the condition of his eyes. My family physician said he would go blind. His intellect also became impaired, that he cared not to be, or play with children. He took no notice of anything around him. None but the parent can tell what our sufferings were to look on our child in this condition.

Most providentially, about one year ago, I saw Mrs. M. G. Brown's "Metaphysical Discovery" advertised in the *Ledger*. I went to the Office, 410 Arch street, and procured the medicine. My wife applied it faithfully and perseveringly. The medicine worked slowly in the beginning, but still we persevered, and the result is that our son is entirely cured of his disease. His intellect seems to have awakened out of the sleep of death. He is considered now a bright and intelligent boy. The discharges from his ears have entirely ceased, and his eyes have become small and natural. His eyes are clear and strong. My wife and myself are well satisfied with the great cure performed on our child by Mrs. M. G. Brown's Metaphysical Discovery, and most heartily commend it to all who suffer.

A REMARKABLE CURE OF BLINDNESS.

CAMPBELLS, C. W., July 23, 1864.—Mrs. M. G. Brown:—Dear Madam:—I have been quite blind in my right eye for seven years. I have been to several doctors, whom I heard could restore my eyesight, but they never done me any good. I spent large sums of money in traveling to where I heard there were doctors who could benefit me, but none of them could do me any good. I thought my case hopeless, until told by a friend you could relieve me. I sent by a friend and procured your "Metaphysical Discovery," and in twenty-four hours after the first treatment, I could see quite distinctly. I am very thankful for my deliverance.

I remain yours, truly,
JOHN BELEY.

OFFICE, No. 56 S. SIXTH STREET,
SECOND STORY.

Under the above title a company has been formed, to enable consumers, large and small, by the aggregate of their yearly expenditure for coal, to own their own colliery, and to supply themselves with the article at cost.

The greatly increased prices of all commodities, with the greater increase still threatening, should lead consumers to devise and avail themselves of every practicable method of economizing upon their own consumption. As far as the mere luxuries of life are concerned, this may be accomplished by abstinence; but as to its necessaries, some other principle must be called into requisition.

In the list of necessaries, few articles hold a higher place than coal, and in regard to this the mutual principle is, fortunately, both applicable and adequate.

A ton of coal delivered at the yard in Philadelphia costs about $7. Delivered at the consumer's door it costs $12. The difference is $5, and yet the cost of carting is only 50 cents.

The explanation is simple. The collier must have his profit, the jobber must have his profit, and the retailer must have his profit. Why cannot consumers, by combining for a single year the amount of their expenditures for coal, possess their own colliery, and make these three profits for themselves?

The Consumers' Mutual Coal Company offers an unusually favorable opportunity for carrying these principles into practical operation. The Company has purchased an old-established colliery, about five miles above Pottsville, with steam-engines, breakers, miners' houses, blacksmith-shops, saw-mill, cars, mules, and all the equipments for a business of 150,000 tons of coal per annum, and having a right for sixteen years to work, *over a mile in length*, the best three veins in Schuylkill county—the Skidmore vein, eleven feet thick; the Mammoth vein, from twenty-five to thirty feet thick; and the Seven Foot vein.

The colliery is now producing 150 tons per day of best quality White Ash Coal, and a new slope is almost completed which will increase its capacity to 500 tons per day.

The present net cost of a ton of coal delivered from said colliery at the door of the consumer is:—

Royalty, mining, breaking, loading, &c..........$3 25
Toll and freight on Reading Railroad..........3 68
Delivery at consumer's door..........50

$7 43

The retail price at the coal yard is..........$12 00

Saving on the mutual plan per ton is..........$4 57

The consumer of ten tons of coal per year can subscribe ten shares of stock at $10 per share, and will be entitled to ten tons of coal at net cost for sixteen years. At present prices he will save about $40 the first year. Should the price of coal increase, as is strongly apprehended, the saving will be still greater.

The present annual production of the colliery is 50,000 tons only, or one ton per share of stock; but the immediate infusion of fresh cash capital into it will increase its production, before the end of the year, to the rate of 150,000 tons. This will enable the company to distribute in cash dividends the profits on 100,000 extra tons of coal each year after the present, which at present prices will be about $500,000, or $10 per share.

There is every probability that the cash dividends of the first two years will reimburse to the stockholders the entire cost of their stock. Very few enterprises can offer equal inducements. It combines production and consumption, saving and gain. Every householder and business man in the community can participate in and should avail himself of its advantages.

The payment on account of the stock may be made as follows:—$3 per share on subscribing; $2 per share October 1, 1864; $2 per share November 1, 1864; $3 per share December 1, 1864.

The object of the Directors is to render the company a great public benefit, and to divide its advantages among a large number of individuals; they have therefore refused several offers from speculators to take large amounts of stock, and until the 1st day of October next have limited the number of shares that may be subscribed by any person to one hundred.

The Company is now prepared to deliver coal to subscribers at $7·50 per ton. Subscriptions for a limited number of shares of stock can be made at the office, No. 5⅜ S. SIXTH Street, and orders for coal obtained.

REPORT OF COMMITTEE OF SUBSCRIBERS.

The undersigned, pursuant to appointment, proceeded on Tuesday, July 2, to Pottsville, and early the following day commenced the inspection of the colliery, &c., the property this company proposes to purchase.

They respectfully submit the following report as the result of their careful investigation:—

First—The coal is of good quality generally, and much of it is very superior.

Second—There is an inexhaustible quantity of coal in the tract, for the term of the lease *at least*. In fact we are assured, with our utmost capacity for mining, exceeding the largest quantity proposed to take out *annually* from this colliery, only an impression would be made upon the vast amount of coal contained in this tract of land.

Third—The facilities for mining and market are very good, there appearing all the machinery, &c., necessary for expeditious mining. The mines being the nearest to Pottsville and the railroad alongside.

The new slope you have so frequently heard alluded to is a very superior one, and is now in process of being finished, and which is expected to be in successful operation very soon. A portion of your committee visited other collieries in order to obtain sufficient knowledge for proper comparison. The result of this branch of their labor is: they did not find any coal tract on sale or lease that presented the same advantages for our purposes as this. Some were undeveloped, others would require immense sums of money to restore their working capacity, which, at the high price of material and labor, would probably exceed the cost of this, with the *uncertainty* of the *full success* this colliery now in complete *working order promises*.

It may not be improper to state, the royalty or rent of this colliery is only about two-thirds the cost of nearly all the collieries in the Schuylkill region, being 25 cents against 30 or 35 cents, and in the present lease of the Girard lands may reach as high as 50 to 60 cents per ton, whilst the proximity of these mines to a market and the superior facilities for getting there greatly enhances the value of this colliery.

DR. W. R. MERWIN & CO.'S COLUMN FOR THE CHEROKEE MEDICINES.

COMPOUNDED FROM ROOTS, BARKS, AND LEAVES.

CHEROKEE REMEDY, the great Indian Diuretic cures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys, Stone in the Bladder, Stricture, Gravel, Gleet, Gonorrhœa, and is especially recommended in those cases of Fluor Albus (or Whites in females) where all the old nauseous medicines have failed.

It is prepared in a highly concentrated form, the dose only being from one to two teaspoonfuls three times per day. It is diuretic and alterative in its action; purifying and cleansing the blood, causing it to flow in all its original purity and vigor; thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INJECTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhœa, Gleet, Fluor Albus or Whites. Its effects are healing, soothing, and demulcent; removing all scalding, heat, chordee, and pain. Instead of the burning and almost unendurable pain that is experienced with nearly all the cheap quack injections.
